

COMMUNITY GREEN READ

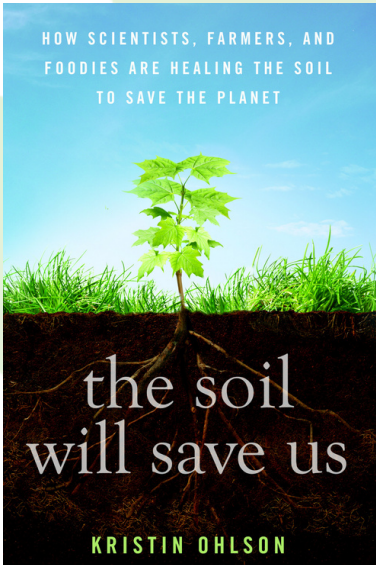

Follow the journey of bestselling author and journalist Kristin Ohlson as she meets the visionaries - scientists, farmers, ranchers, and landscapers - who are figuring out in the lab and on the ground how to build healthy soil.

Ohlson makes an impassioned case for "our great green hope"—a way in which we can not only heal the land but also turn atmospheric carbon into beneficial soil carbon—and potentially reverse global warming.

Read the book then join us for a virtual discussion with the author!

Monday Sept. 20 @ 7pm

How To Get It

Borrow a digital copy from your local library on Overdrive/Libby, or check for availability of physical copies

Order a copy from the
Katonah Reading Room
(914) 334-8019
